Whittemore, president and legal representative of the Las Vegas Townsite company, has gone to Pioche to attend court proceedings. The particular case that requires his presence in the district court is one of great interest here. The issue enjoined is what is a hotel and the right of selling liquor, by purage. The issue enjoined is what is a hotel and the right of selling liquor, by purchasers of certain lots from the townsite company in Clark's Las Vegas. The company in Clark's Las Vegas. The company required from each purchaser of a lot an agreement in which the purchaser agreed to certain conditions. Amongst others were, what is known as the hotel clause. The statement has gone forth that a violent conflict was on between the San Pedro or Clark railroad and the Tonopah and Tide Water railroad people. John Ryan, the representative of the Borax interests, avers that there is nothing to the sensational talk and that the interests he represents are at peace with all enterprises that have for their aim the development and prosperity of Nevada. He likewise affirms that the Tonopah and Tidewater road will be pushed to completion and will have a satisfactory traffic arrangement with the Clark road. These things tend to make Vevas the great traffic point. Conditions for a great commercial centre at this point are shaping themselves.
